## Intro to CSS

- Great for formatting!
  - Separate from content
  - Create your own rules to apply
  - Consistency across pages
  - Change many pages' formatting by editing just the rule
  - Update or refine your entire site easily
  - Accessibility

---

---

---

---

---

---

---

---

## Get ready to edit

- Ensure local folder called info652
  - on your thumb drive
  - Includes index.html and about.html
- Open SSH for SFTP to dunx1  
hostname:  
**dunx1.irt.drexel.edu**

---

---

---

---

## CSS

- How to write style rules:  
selector {declaration}
- Declarations are made up of one or more  
"property/value" pairs:  
{color:red; background:white;}

10

---

---

---

---

---

---

---

---

## Create external stylesheet

- New blank text document
- Start writing style rules:

```
body {background:silver;}  
h1 {color:maroon;}  
h2 {color:white;  
    background:maroon;}
```

- Save as 652.css in local folder with .html files

11

---

---

---

---

---

---

---

---

## Link index.html to style sheet

- Open index.html in Notepad
- In the head section, just below the <title>  
tag, add:

```
<link rel="stylesheet"  
type="text/css"  
href="652.css" />
```

12

---

---

---

---

---

---

---

---

## Expand index.html

- Add some more text
- Add some more headings, including `<h3>` elements

13

---

---

---

---

---

---

---

---

## Link to about.html

```
<p>Go to my  
<a href="about.html">About page  
</a>.  
</p>
```

4/21/2009

E.Corse, Drexel IST

14

---

---

---

---

---

---

---

---

## Change colors

- Use hex codes from [RGB Hex Triplet Color Chart](#)
- Example:  
**`h1 {color:#330b67;}`**
- Change all 4 colors (body background, h1, h2, h2's background)
- Add new rule to describe color property for h3 selector

## Length of Copyright Protections (US)

- Since 1978
  - term=life+70 years
- 1964-1977
  - 95 years (probably)
- Before 1964
  - 28-95 years
- Before 1923
  - In the public domain

## Copyright is important...

- Librarians should always be aware of the issue
- Creators need to protect their works, if they want to maintain control
- Students must avoid plagiarism to succeed

## FW topic

- audience
- your own original textual and graphic information, plus annotated links
- 5-8 pages total, including:
  - Home page
  - About page
  - Annotated links
- watch tone
- **WARNING:** this project will be published on the internet, via your dunx1 account

---

---

---

---

---

---

---

---

## Sample topic proposal 1

I'm hoping to create a website that will inform an audience of neophyte comic collectors. I might include pages on Getting Started, Where to Buy, How to Protect, and My Favorite Superheroes. To avoid copyright issues, I can use my own original anime for images.

---

---

---

---

---

---

---

---

## Sample topic proposal 2

My website will offer resources for new parents, including some comic essays I've written through the years, plus book reviews of my favorite parenting books. I'm also planning to include lots of links to the best online resources for health, adoption, and shopping.
