| **Culinary Arts: Basic Baking**  
Julius Rosato  
Elementary  
Week 2 | This course explores a range of basic and specialty breads along with cakes and pastries. You have everything it takes to become a baker, all you need is the training. Come and explore the confectionary world as you learn to bake and decorate a cake, and it may even help you open your very own bakery or dessert catering company.... with your parents’ permission of course!  
Skills learned:  
- intro to baking  
- flours, sugars yeast  
- icings, and piping skills  
- Bread dough and muffins  
- Basic cake and decorating  
- Basic pastry skills  
- Create a small dessert buffet at week’s end |
| **Sewing Basics 2 - Fashion!**  
Colleen Moretz  
Elementary, Middle and High School  
Week 2 | Would you like to know more about the exciting world of fashion? We invite you to take what you learned in Sewing Basics 1 and take it to the next level.  
In this session you will learn how to:  
- Practice your new sewing skills  
- Sew a skirt  
- Hand sew  
- Seam finishes  
- Learn appliqué |
| **Bollywood Dance**  
Nisha Punjabi  
Elementary, Middle and High School  
Week 2 | What is Bollywood Dance?  
Bollywood is a dance style from India. Dancers learn a blend of the 3 dance styles of India: The Classical, The Folk, with a blend of the Modern dance styles.  
Our goal is a complete cultural exchange and understanding of cultures through dance. Attaining a complete physical, mental, emotional and spiritual workout that enables us to walk away with a smile on our face and a skip in our step for the rest of the day. BOLLYWOOD is a fun filled, energetic, graceful and amazing dance form. |
| **Improvisational Comedy**  
Bryan Cummings  
Middle  
Week 2 | Imagine putting on a play without having to learn lines. Improvisational comedians can do this with no problem! In this camp, you will get the basics of improvisational comedy. We will work on becoming comfortable on stage and developing the skills necessary to have the most fun you could possibly have on stage! At the end of the week, you will have the opportunity to put on a show for all of your friends! You do not need to have any prior experience to have a blast this week! This week will focus on developing characters, movement principles, emotion and games specific to these concepts. |
| **Explorations in Illustration**  
Dan Kafader  
Middle School  
Week 2 | Learn to bring your ideas to life by using technical & scientific illustration techniques. In this class, you can design your own building, create a scale drawing of a bicycle, and accurately draw plants, animals, or even microscopic organisms.  
Learning to illustrate with the eye of a scientist will help you prepare for more advanced art courses in high school. People with an interest in nature, how things work, or who have great attention to detail are encouraged to join this camp! |
