Work Experience

Drexel University - Work Study

Web Designer

- Designed website compositions for the new Drexel University Writing website.
- Composed the ideas in Adobe Photoshop.
- Listened and changed elements of the original idea based on the professor's advice.
- Implemented the website in Adobe Dreamweaver.
- Investigated and eliminated web server errors.
- Developed excellent time management and deadline skills.

Philadelphia, PA

January 2008 - Present

Class Work

Hybrid Interactive Authoring

Programmer

Bow-Wow Books Mock Website

April - June 2008

Collaborated in a four person group to recreate a website that has a poor design.
Analyzed the flaws of the original site.
Formed sketches for the layout and navigation of the new mock site.
Translated the sketches into Photoshop compositions.
Voted for the strongest design.
Programmed the strongest design in Adobe Dreamweaver.
Produced new content to add onto the original content of the real site.
Hosted the new website on the school's internal servers.
Improved the original Bow-Wow Books website's design and content.

Activities

- Pioneering interactive websites that include a convergence of both old and new media.
- Generating new ideas for websites and interactive games that are original.
- Devising ambitious projects that are challenging and risky.
