

# Research Participants Wanted

Interested in the factors that lead to functional decline in  
Alzheimer's dementia?

Drexel University and the University of Pennsylvania are conducting  
research on the **factors that impact performance in daily skills for  
individuals with Alzheimer's disease.**

Participants will be involved in one session involving:

1. paper-and-pencil tests designed to assess cognitive abilities;
2. Filling out questionnaires about how you perform in daily life;
3. "Driving" in a virtual reality environment!

For your time and participation  $\Rightarrow$  you will receive \$35 upon completion  
of the study.

To be eligible for the study, you must be:

- Between the ages of 60 and 85.
- Able to bring someone with you who can serve as a  
reliable informant.
- Driving at least twice a month.
- Driving for at least a year.
- Willing to participate in a **2-2½ hour study.**

**Where:** Neuroengineering Lab, Room 630A  
Drexel University  
3150 Market Street  
Philadelphia, PA 19104

**How to participate:** Contact Maria T. Schultheis, Ph.D.

By calling 215-895-6105
