Midterm Exam and Project Specifications

Preamble: An in-class two-part midterm covering the past 5 weeks is to be taken by all students. The past 5 weeks presented VB fundamentals, DLL, ActiveX, Winsock and circuit diagrams (stepper, relay, key pad) and may all or partly be asked in the midterm. Project specifications constituting 25% of the MEM800 final grade follows the midterm.

Lesson Plan:
- Midterm: First part closed book handwritten answers (1.5 hours)
- Midterm: Second part open-book, VB programming on PC (1 hour)
- Project Specifications

Next Week:
- Homework (relates to project) – See Handout
